

Wireless Massager

UCARETRON

Who use it?

Workers

Housewives

Students

Drivers

Seniors

EASY CONTROL

The massager is connected to a smart phone by Bluetooth and controlled by app(Android/iOS)

As the massager is often put on the shoulder or back, wireless control is inevitable

User can operate two massagers simultaneously

They can get a massage on different parts of their body at the same time just like hand-massage

Each massager is separately controlled by time-delay, stimulation level.

Music Beat Massage

The massager stimulates to the music beat.

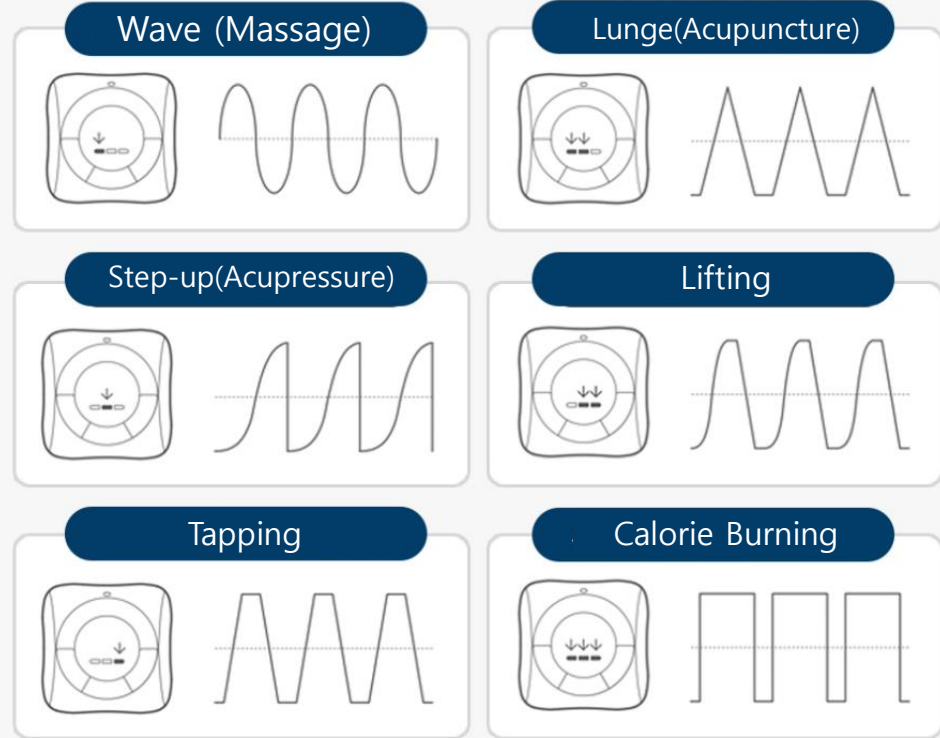

40 songs are pre-saved in the app

- Intensive beat music : 20 songs
- Piano : 10 song
- Meditation music : 10 songs

The user can make a playlist with their own music

Massage Mode

Stimulation Level – Up to 20

Various Pad

Various Pad

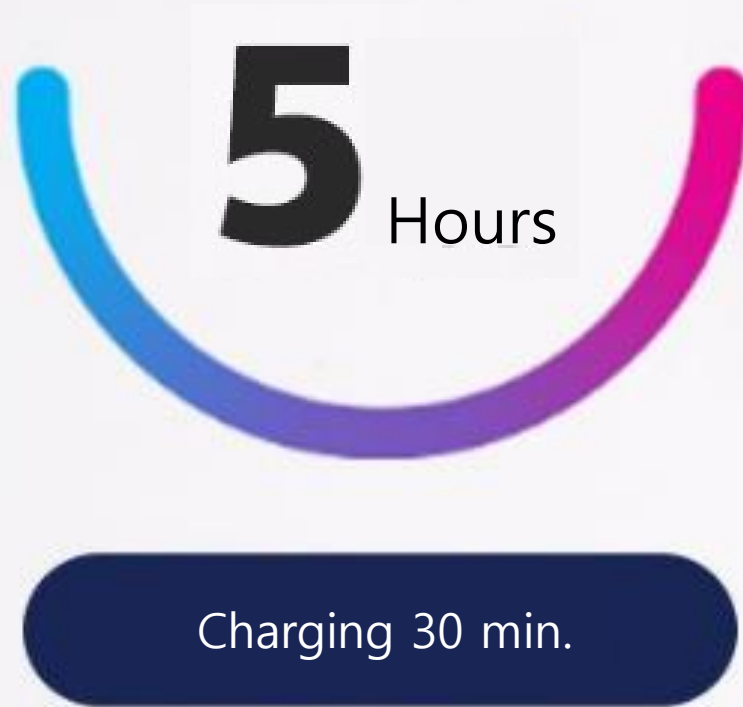

HYDROGEL ON PAD

Hydrogel on the pad
maximizes effectiveness of
electrical stimulation.

If the adhesion is weak, it can be used
more after being washed in the water
