Plasma Air Purifier

Air purifying device optimized in ultra-fine dust(PM2.5) and harmful substances removal(ex. kitchen harmful gas, ammonia, benzene) with powerful deodorizing effect.

Product	Plasma Air Purifier
Size	210x210x105(mm) / 8.26x8.26x4.1(inch)
Color	White
Manufacturer	WOORIDL Life Science
Manufacturing Country	Republic of Korea
Power Consumption	6W
Rated Voltage	DC12V/1A(100~240V)

Ultra-fine Dust Removal(PM2.5)
Filters more than 99% of ultra-fine dust

Mood Light
Soft-colored mood light with timer and light-off function (blue&warm-white)

Allergic Substance Removal
Filters allergic substances such as ammonia, pet hair and more

Natural Diffuser
Natural air masking aroma care

Powerful Deodorizing Effect
Odor is removed through triple activated-carbon filter

Filter Replacement Alarm
Let you know the right time to change filter (Red LED light on the front side)

Down-Top Air Care System
Contaminated air is sucked from the bottom and clear air goes out from the top

Plasma Ion
Deactivates bacteria in the air to provide clearer and healthier air

Wall-Type & Stand-Type
You can install the product in two ways depending on the place of use

Lowest Noise
Less than 20dB(=sleeping mode)

Made in Korea
Reliable product quality

FAQ

When do I replace the filter?

The filter is recommended to use for 6 months base on 12-hour use a day.
(However, the replacement cycle may slightly differ depending on the place of use)

What is the recommended area of use?

This product is classified as small air purifier and 16.5sqm is recommended.

Where do you manufacture the filters?

Both main product and filters are produced in Republic of Korea.

If I can't drill the wall, how can I use wall-type product?

You can attach the product on the wall with foam-tape enclosed.
In this case, it is recommended to install the product only on smooth surface
(ex. glass or tile)

How do I control the intensity of the diffuser?

You can control the intensity of diffuser with number of diffuser sticks.
(The more sticks, the stronger scent)

How do I operate the product?

Connect the DC adapter to the product and plug it into the outlet.
Then, touch the power button to operate the product in Air Mode 1.

How do I change the color of Mood Light?

Light color changes each time you touch the button. (blue→warm white→off→blue ...)

Does it have Bluetooth or Wi-Fi function?

This product does not have Bluetooth or Wi-Fi function.

Where can I ask other questions related to the product?

Contact us on the website or by phone.
