99.9 % Antibacterial Performance

UV Protection

Excellent breathability

< Problems of entrenched competitors' masks >

A study on competitors' products review from actual purchasers.

- No size choices and the free size masks don't fit on adults' faces
- Too thin like single-knit
- Need wire for nose because glasses mist over easily
- Ear loop is too long or too short
- Ear loop is not stretchy
- Ear loop adjustment clips are fell out easily
- Not stuck to face
- Lost my stoppers for ear loop
- Need mask pocket for refill filters
- Masks in transparent envelopes for bulk packing doesn't seem sanitary
- (After wash) Either ear loop is pulled apart or got out of its shape
- (After wash) Shrink in size
- (After wash) Increase in size
- (After wash) Ripped easily

< Feature points of our products >

- * Make up for the deficiency of entrenched fabric masks to make it perfect.
 - It stands long use as compared to other cheap fabric masks.
 - Disposable masks a large number of people using are made of polypropylene.
 - Polypropylene is weak against ultraviolet light. Exposing to UV light causes a yellowing and lose its character.
 - All over the world people are becoming polluters using disposable masks every single days. This fabric mask is more economical and eco-friendly.
 - It is washable and reusable for all seasons.
 - Adults and teenagers can use.
 - It is light weight.
- Weight of Medium (M) mask : 14g (= 0.03 lb)
- Weight of Large (L) mask : 16g (= 0.035 lb)

LONG-LASTING, ECO-FRIENDLY, ECONOMICAL PREMIUM MASK

Our premium masks solve the problems of existing masks last longer than cheap fabric/cotton masks packed in 3-4 pieces.

It is also more eco-friendly and economical than disposable masks that cause environmental pollution.

< Functional yarn >

- Outer and inner fabric are made of remarkable antibacterial yarn called Aerosilver from the big Korean yarn manufacturer : Hyosung Group.
- Contain Ag+
- Cool comfort fabrics
- No fluffs after wash
- Outstanding durability
- Passed strict inspection in KATRI (Korea Apparel Testing & Research Institute) and verified that it's 100% safe fabric

< Water-Repellent >

- Water-repellent treatment is applied to the inside of the mask to effectively block out splashes, water droplets, and saliva from the outside.
- In addition, it has antibacterial and deodorizing properties.
- Excellent durability.
- Lint-free and retains its shape and performance even after hand-washing several times.

< Design >

- With the 3-dimensional curved design ergonomically, widely cover from nose to chin. It sticks to the face and fits on various sizes of face
- Comfortable in breathing and wearing
- Wearable in daily life
- Functional yarn for outer and inner fabric protects water drop and dust. It also blocks out UV rays for 99.9%.
- Composed of very thin but solid three-layer structure

**** Users can insert an additional refill filter if they want ****

- There is a built-in filter pocket to insert an additional refill filter inside the mask.
- For those who want additional protection, wearing a mask after installing an additional refill filter in the filter pocket increases the effect of blocking fine particles and dust.

ADDITIONAL REFILL FILTER POCKET

Inner side for White model

*An additional refill filter is sold separately.

Inner side for Black model

*An additional refill filter is sold separately.

< How to install the refill filter >

Insert an additional refill filter into the inner pocket of the mask

- * An additional refill filter is not currently included in the package.
- * It will be bundled in a set configuration in the future.

< Internal structure of the mask >

- PCM (Phase Change Materials) cooling print processing inside the mask
 - * The cooling print processing inside the mask absorbs the heat inside the user's mask and makes feel cool with the heat absorbing effect.
- Especially in hot weather, if user wears the mask after blowing cold air on the fabric inside the mask, the cool feeling will be more maintained.
- There is a built-in filter pocket to insert additional refill filters inside the mask.
- For those who want additional protection, wearing a mask after installing an additional refill filter in the filter pocket increases the effect of blocking fine particles and dust.

< Special non-corrosive antibacterial copper wire >

- Insert the non-corrosive antibacterial copper inside the mask for nose
- The antibacterial copper with special coating prevents rusting
- Minimize the pollutant inflow ; the wire is bended and adhered to one's nose
- Prevent the glasses or sunglasses from misting over

< Elastic ear loops and Silicon stoppers >

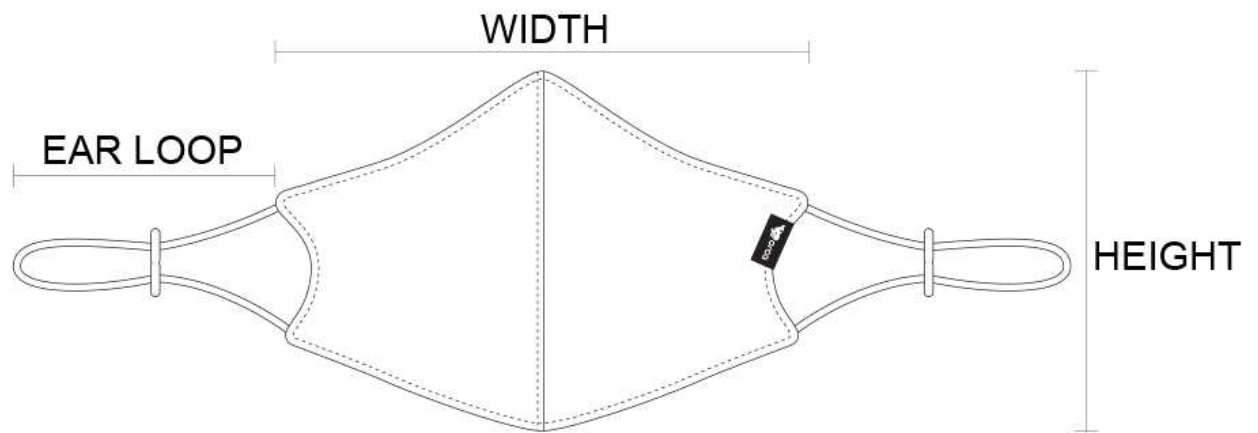

- Very strong and stretchy, elastic ear loops
- It does not hurt users' ears.
- Comfort of wearing without pain
- Adjustable with the silicon stoppers for ear loops
- No risk of the stoppers loss

< Improvement of production and control of quality >

- All the materials of our masks including yarn, fabric, and subsidiary materials are domestic production in South Korea. We also proceed other production processes like sewing, packing, and cargo checking in South Korea.
- It is made by the professionals with more than 20 years sewing experience.
- We consider quality control a high priority.
- A quality inspection process is conducted after manufacturing.
- With outstanding fiber, the fabric is not getting fluffy easily after wash. Shape and function are also maintained.
- Packed in retail paper boxes after individually packaged in polybag to be delivered.

LONG-LASTING, ECO-FRIENDLY, ECONOMICAL PREMIUM MASK

Our premium face mask that solves the problems of existing masks last longer than cheap cotton mask packed in 3-4 pieces. It is also more eco-friendly and economical than disposable masks that cause environmental pollution.

Premium handmade mask that fits perfectly on your face

- Our face mask has replacement filter pocket, nose wire clip, adjustable ear loop and you can adjust them to fit your face. It is durable, soft, breathable, comfortable fit and provides protection against droplet and dust.

Protect your family and yourself with this premium mask

Outer and inner fabric are made of remarkable yarn called Aerosilver. It supports antibacterial performance, sweat-absorbing, quick-dry, UV protection. And, There is a replacement filter pocket on the inner fabric, when a filter is installed, dust and other small particles can be blocked.

Used premium materials to provide complete functionality

- Special coated copper nose wire clip prevents rust from coming out even after washing and prevents fogging on the glasses. Durable and elastic ear loops maintain a comfortable fit even if the mask is worn for a long time. Silicone material of ear loop stopper minimizes pain in contact with the skin and the length of ear loops can be adjusted to fit your face.

It is made integrally with ear loop, so there is no risk of losing the stopper.

Premium design for everyday use

- Can be worn in everyday life such as indoor/outdoor, going to the store, walking in the park, at work or school, travel, business trip. It is designed with an ergonomic three-dimensional design and does not stick to the nose when breathing, so you can breathe comfortably.

Reusable, Washable, Breathable BEST Quality Fabric Face Masks for Adults & Teenagers

**** HIGH QUALITY ****

100% Pure Cotton Face Masks for Kids / Children (Ages 1 to 10 Years)

Special features of the product

- This is a fashion mask for infants and children made of 2-ply pure cotton material that may be used throughout all seasons.
- Pure cotton fabric that has been fully manufactured in South Korea (soft 30 count cotton fabric) has been used.
- This mask is appropriate for use by infants and children through the use of safe fabric and materials.
- It offers outstanding thermal insulation and air permeability.
- It features a soft and cozy feel of wear.
- It may be used safely, even on sensitive skin, since it is not irritating.
- The mask is lightweight.

Comfortable and safe mask for your child

- There is no stuffiness from nose compression as it is manufactured 3-dimensionally in consideration of facial contours.
- We used high quality, pure cotton without fluorescent chemicals for a softer feel of wear.
- This mask will protect your child against cold air and dust.
- It can be worn in accordance with your facial size by adjusting the length of the ear loops with the clip provided.
- This mask will protect you against various types of dust and contaminants, and it will also maintain facial warmth through its thermally insulative effects during winter.
- 100% high quality washable pure cotton is employed for continuous use of the mask after washing with an ease of breathing along with a soft feel of use.

Various Patterns

Diversified, cute-patterned designs that children love will encourage children to wear them without feelings of repulsion and rejection.

Handling method and precautions at the time of handling

- Given the nature of cotton fabric, the product may shrink depending on the washing method.
- If you immerse it in water for a long period of time, color fading may result.
- Washing it manually with cold water is recommended.
- Use standard laundry settings with cold water.
- Do not use oxygen-based bleach.
- Machine drying is not recommended since the shrinking can be excessive.
- Boiling the mask may cause discoloration and mask damage.
- Given the nature of cotton, there may be some shrinkage after washing.
- Wring out the mask lightly and dry in a shaded area after washing.
- Guidelines on product management.
- Washing the mask manually with cold water is recommended.
- Please wash the mask before wearing it for the first time.
- Wring it out lightly and dry it in a shaded area after washing it manually in cold water.
- Do not use bleach or fabric softener.
- Dry cleaning is not recommended.
- Color fading may occur if the mask is immersed in water for a long period of time.
- Please clean different colors separately.

Reusable Washable 100% Pure Cotton Face Masks for Kids & Children

- The entire process of manufacturing including production of yarn and fabric, subsidiary materials, packaging, finishing, and inspection, etc. have been carried out in South Korea.
- Through the application of ergonomic, 3D structured patterns in accordance with facial contours, the mask provides comfort in wear as it closely conforms to the face. is the ear loops are highly elastic.
- A clip for the adjustment of the ear loops is included with the mask for even closer conformance of the mask to the face by making necessary adjustments with the clip.
- This mask will protect against various types of dust and droplets, and will also maintain warmth through its thermally insulative effect during winter.
- It will protect your child against both cold air and dust.
- Since the mask can be washed in water, it is substantially more environmentally-friendly and economical than the usage of disposable masks that inevitably induce environmental pollution.
