“Predictive maintenance solution has already begun”

It's a known fact that numerous leading conglomerates started introducing UYeG.

You can predict!
UYeG

2018

**450 cases and
it's World's
best performance**

32 Public organizations / 53 Private companies
Accident prevention & Energy reduction
& Preventive Maintenance

2001

L chemical,
1.8 hundred
thousand USD

Top water/ Sewage
/ Waste water/ Air conditioning
/ SMB 1.8 hundred thousand USD

2006

S Metro
1.4 million USD
H Heavy industry
2.7 hundred
thousand USD

2010

H Motor company,
K Motor company 3.5 million USD
K Aero space industries
4 hundred thousand USD
P factories in Pohang, Kwangyang,
China 270 million USD
Korea East-West company
9 hundred thousand USD

Blood flows in our body 24 hours.

Oriental Medicine could easily figure out tens of thousands of diseases just through the blood flow of human body and predict what could possibly happen to the patient.

You can predict!

UYeG

With the concept of Oriental Medicine,

ITS invented UYeG which can predict critical accidents and breakdowns beforehand by looking into the electricity flow of all plants.

ITS furthermore, has commercialized for the first time in the world the technology that reduce considerable amount of energy use.

**SMART-EOCR
IoT-EOCR**

“Why UYeG?”

anytime & anywhere
Industry Insights
Zero Down Time

Applying **UYeG** means,

prevention of fire, explosion, accidents and breakdowns based on Big Data

integrated facility monitoring based on IoT

energy management with zero cost based on fine energy maintenance

UYeG is available in every field where the electricity flows.

Factory / Facility

Traffic / Transportation

Environment / Safety

Petrol / Chemical / Energy

UYeG

first obtained international patent of its Preventive Maintenance Solution, realized its **safe smart factory** and got involved in making the environment reduce energy use.
