Lifting up pack

This product contains peptides and naturally extracted ingredients which will improve the skin's overall complexion by lifting and brightening it.

This product also contains isoflone and lily extract to protect the skin against bacteria.

Lifting up capsule

Capsule contains amino acids, which is the main component in maintaining hydrated skin.

HOW TO USE

- 1 Please clean your face with a cleanser.
- 2 Open the lifting pack lid up to the opening line. Open the lifting capsule cap and pour it all into the lifting pack container.
- 3 Close the lid and hold open line tightly by hand and shake it strongly for 30 seconds.
(When it is completely mixed, it becomes a Gel.) Mixing 1 and 2 may not be effective if they are not mixed sufficiently.
- 4 Use a brush to apply evenly over the entire face and prevent eye contact.
- 5 Wait about 15-20 minutes and wash with warm water.

SURPRISE! BEFORE & AFTER

CAUTIONS WHEN USING THE SPECIAL SKIN CARE LIFTING PROGRAM

Happens When Using Lifting Packs

► Redness of face

The lifting effect is strong and the papillary blood vessels gets activated. When the blood circulation gets faster (ex: when drink alcohol), your face becomes red. Redness will disappear after about 30 minutes to 1 hour. However, if this phenomenon lasts more than 24-48 hours, it will be treated as a trouble.

► A Stinging of the Skin

Instantly strong lifting action that makes customers with sensitive skin temporarily feel tired, but it is not a side effect, so you can use with confidence.

► Itching

Customers with dry skin may experience more itchy symptoms, but it is not a side effect, so you can use it with confidence.
