

We are the LEADER of KOREA INTERNATIONAL TRADE

Company Introduction

Jay-Commerce is a company that moves quickly and moves to meet the needs of consumers by using the strengths that startups can have.

The consumer's right is to purchase quality products at the cheapest price and use them satisfactorily. J-Commerce is a company that thinks and acts based on this standard, and will continue to strive for higher customer satisfaction.

We will continue to grow into a company that communicates with customers, not just sellers, through customer-centered thinking by thinking from the customer's point of view and improving customer discomfort.

Best Product

metapure glass footfile

Negotiable
Min. Order

Metapure is a product that will set a new standard by overcoming the shortcomings of existing exfoliators. It is characterized by simple use, hygienic management, and two-step keratin management.

Metapure is a product that will set a new standard by overcoming the shortcomings of existing exfoliators. It is characterized by simple use, hygienic management, and two-step keratin management.

It can be used immediately anytime, anywhere without the need for pre-work, and it is easy to manage with easy cleaning. In addition, because it is a glass material, it is free from bacterial propagation. It is a design capable of two-stage keratin management, allowing for personalized management and more delicate management.
