C·N·F KOREA

CNF KOREA, an abbreviation of Coffee and Food, is a company established in January 24th, 2005, specializing in manufacturing and distributing instant coffee with more than 15 years of experience.

Without forgetting the essence of food manufacturing business, we are equipped with specialized facilities for thoroughly inspecting raw materials and are growing to become a company that contributes to the development of Korean coffee culture while providing the best taste and experience to our customers.

Furthermore, inspired by the successful launch in domestic market, we are growing into a global company by exporting our products to the world including Russia, China, Mongolia and the Philippines.

CNF KOREA will become a company that regards customer satisfaction as the best value by providing clean food rather than being an externally fancy and nice company.
