# AUTOMATIC Counter Stick Line

饼干条自动计数输送整理包装系统

- Advantages of automatic feeding system

1. High speed accurate positioning
2. Easy access to product change of different sizes.
3. Simple structure, convenient cleaning

- Advantages of automatic arranging system

1. Suitable for the products in tidy or rambling condition.
2. Simple structure, easy operation and convenient adjustment.
3. Performing automatic distribution and change based on the state of automatic feeding and packing machine
4. Easy connect with feeding tray, packing machine and automatic cartoning machine system

- **PACKING SPEED 30 ~ 120 bags/min**

- **Packing film width 90 ~ 220 mm**

FEEDING TRAY

COUNTER

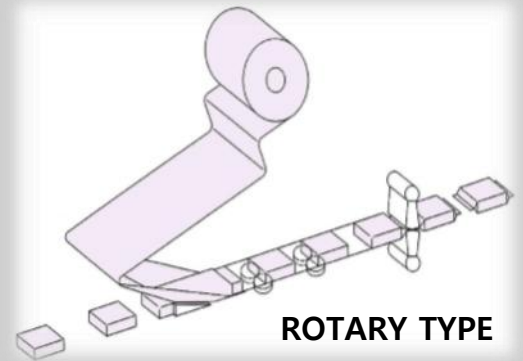

CARTIONING

FLEXIBLE CONVEYOR

# PACK-100 HORIZONTAL PACKING MACHINE (ROTARY TYPE)

1. Using MITSUBISHI SERVO system, large screen for intuitive display of machine working status.
2. Advanced adjustment by SERVO drive at variable speed.
3. Stop and printing position can be set as needed.
4. Special bag former can be adjusted quickly suitable for various product sizes.
5. Various auto-feeding units are available
6. No need of manual setting of bagging length, Automatic detecting and setting under operation.

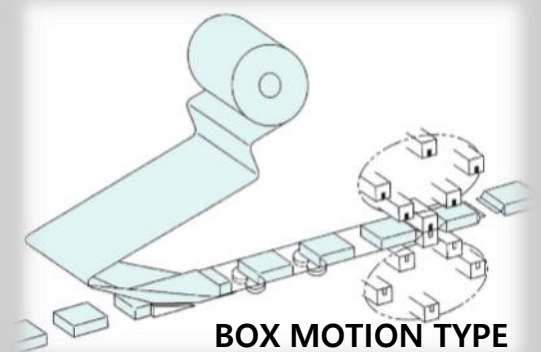

**Packing size : 90 ~300 mm**

**Packing speed : 35 ~ 300 bags/min**

**Packing film : OPP, PVC, PE, OPP/CPP, KOP/CPP, PT/PE, Alu-foil etc**

**Power supply type : 220V, 50~60hz**

# PACK-200 HORIZONTAL PACKING MACHINE (BOX MOTION TYPE)

1. Using MITSUBISHI SERVO system, large screen for intuitive display of machine working status.
2. Stop and printing position can be set as needed.
3. Special bag former can be adjusted quickly suitable for various product sizes.
4. Various auto-feeding units are available
5. No need of manual setting of bagging length, Automatic detecting and setting under operation.
6. Has more sealing time has more sealing pressure it is suitable for thick film with high leakproof requirement has very compact package.

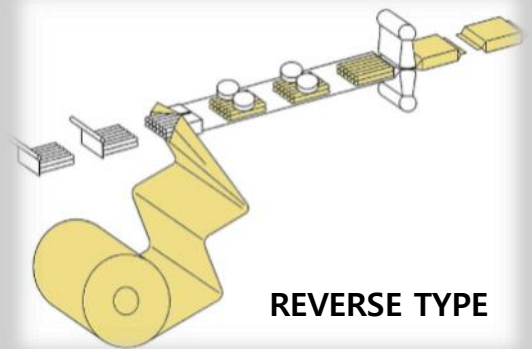

**Packing size : 90 ~300 mm**

**Packing speed : 35 ~ 120 bags/min**

**Packing film : OPP, PVC, PE, OPP/CPP, KOP/CPP, PT/PE, Alu-foil etc**

**Power supply type : 220V, 50~60hz**

# PACK-300 HORIZONTAL PACKING MACHINE (REVERSE TYPE)

REVERSE TYPE

1. Using MITSUBISHI SERVO system, large screen for intuitive display of machine working status.
2. Advanced adjustment by SERVO drive at variable speed.
3. Stop and printing position can be set as needed.
4. Special bag former can be adjusted quickly suitable for various product sizes.
5. Various auto-feeding units are available
6. No need of manual setting of bagging length, Automatic detecting and setting under operation.

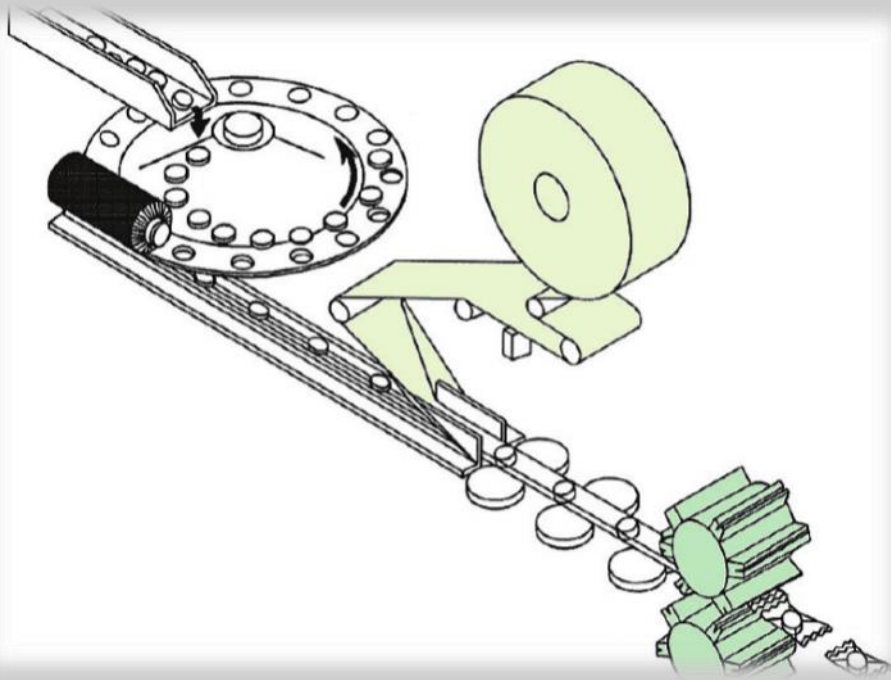

**Packing size : 90 ~300 mm**

**Packing speed : 35 ~ 120 bags/min**

**Packing film : OPP, PVC, PE, OPP/CPP, KOP/CPP, PT/PE, Alu-foil etc**

**Power supply type : 220V, 50~60hz**

# PACK-800 HORIZONTAL PACKING MACHINE (CANDY LINE)

1. Using MITSUBISHI SERVO system, large screen for intuitive display of machine working status.
2. Advanced adjustment by SERVO drive at variable speed.
3. Stop and printing position can be set as needed.
4. Special bag former can be adjusted quickly suitable for various product sizes.
5. Various auto-feeding units are available
6. No need of manual setting of bagging length, Automatic detecting and setting under operation.

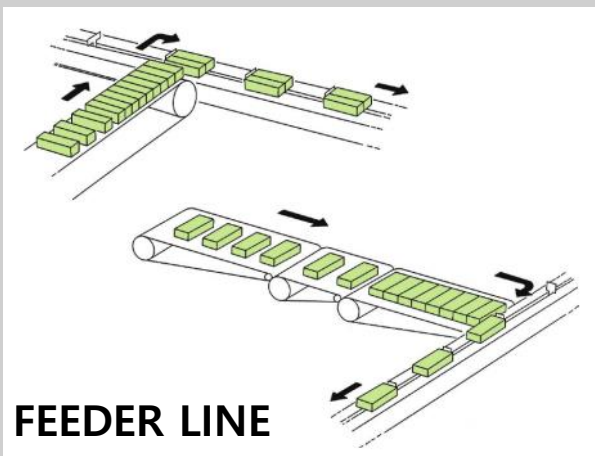

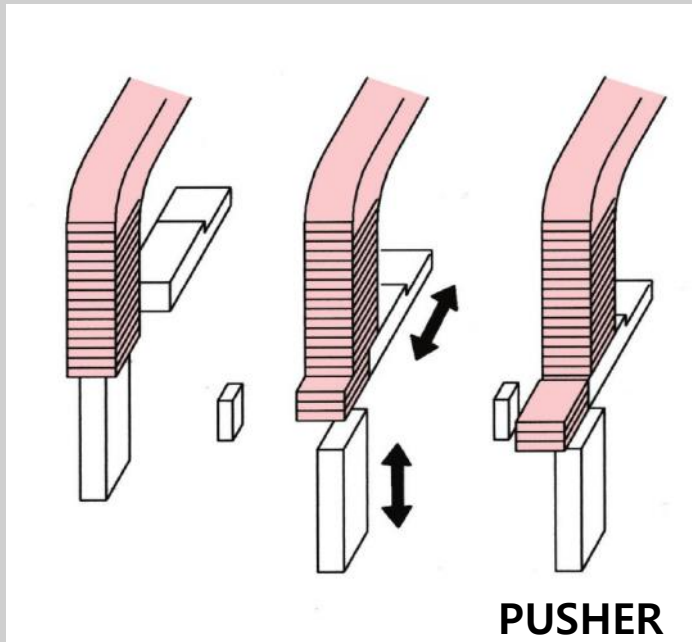

Packing size : 30 ~ 40

Packing speed : 600 ~ 800

Packing film : OPP, PVC, PE, OPP/CPP, KOP/CPP, PT/PE, Alu-foil etc

Power supply type : 220V, 50~60hz
