1. About KOWIN BIO

Our company is excellent at raw material supply, sourcing and research and development in Korea.

Based on reliable resources, we supply raw materials to large cosmetics companies in Korea and China.

We can meet customers' needs for basic and color parts with raw materials such as extracts, capsules, and color cosmetics and provide technical services. Also all raw materials we supply are based on Korean technology raw materials. In addition, we are producing and planning high-quality cosmetics based on these specialized raw materials.

From semi-products to complete products, we are delivering the full line of cosmetics safely with the best quality.
