

About WINDWIRE

WINDWIRE aims to be a world leading company, delivering innovative products and creative design that maximise user convenience and make enriched lives full of happier and easier experience to our valued customers.

All the members of Windwire dedicate our efforts into creativity and innovation and shared value with our partners.

No More Tying Your Shoes, Just Rotate ROLLKIN DIALS

Dreams are Boundless

We look forward to exploring new business areas such as healthcare and medical, and continue our journey through the history of innovation. We also focused on strengthening and expanding the business with our ground-breaking and consumer-focused products which challenge routines and stereotypes. For this, we are continuing to invest in revolutionizing products and distribution methods for our highgrowth, high-profit B2B business.

WINDWIRE Technology

• Accumulating know-how of dials since 2009.

ROLLKIN system

ROLLKIN system is developed by relentless endeavour, enthusiasm and challenge of our great people. This progressive system launched in 2008 that shifted market paradigms. Brilliant innovation and unique design of the ROLLKIN system is a valuable result of a myriad of ideas and experiments that endlessly refined the details of color, material, form, and finish.

ROLLKIN 2.5 CHROME

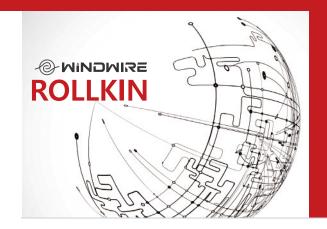

ROLLKIN 3.0

ROLLKIN 6.0

Rollkin 2.5 Chrome won the Good Design award, features enhanced precision, perfect fit, easy grip dial, smooth operating. Improved assembly system with screw assures durability and comfort in the harshest conditions.

Extremely high durability of Rollkin 3.0 with screw linkage delivers maximum power, large capacity, and high performance.

Rollkin 3.0 is designed with precisely adjustable dial offering comfort fit and solid components which endure strong impact in harsh conditions.

Rollkin 6.0 has a wide range of colour and design and is designed for various products such as shoes, helmet, medical et cetera. A convenient way of use and lightweight presents precise adjustment, comfort, and stability. Advanced dial system of Windwire provides simple reassemble process in case of detaching dial by external shock. Moreover, spacious and flat surface of the dial allows any logo printed on.
