Intake Method of Stevia, Natural Gift

It is very useful for having tea or sweetening with 1-2 tea spoons (about 1.5g) in hot water and may be used as substitute cooking material for Yogurt/Salad sweetener. People who prefer coffee may have it after putting small amount of Stevia into the coffee and the Stevioside is brewed after 2-3 minutes.

Put 2 dry leaves of Stevia into a paper cup and pour hot water up to 2 thirds of the cup. After 3-4 minutes, you may feel the fragrance of the Stevia which is as delicate as the fragrance of green tea.

Why? The **Stevia** of Stevia Korea is different.

Sugar substitutes are produced in the name of Stevia by many companies in Korea. As you see in the label, they are produced with 10% of Glycoside extract, and 90% of Erithritol. The Stevia powder of Park Byeong Ho Natural Farm has natural green color as produced with 100% Stevia leaf only not like other Stevia products which have white color not green color as produced passing chemical refining process.

Choose the Stevia of sugar substitute!! Do not hesitate now and **find the natural sugar of green color.**

WoW Sweet Taste and Excellent Effect

Overflowing Charm of Stevia

The Stevia powder of which particles are finer than sugar has sweet taste higher than sugar. Anybody may have it without fear as the influence on blood sugar and weight is low and the absorption is slow. It is helpful in making clean blood and skin as Polyphenol is much contained. And it is so much helpful in quenching thirst that farmers in South America region pick much Stevia leaves instead of drinking water when working.

More than 100 kinds of vegetable nutrients are also contained in Stevia, thus it is called immunity grass as it has a strong antioxidant activity (immunity) which suppresses the

action of active oxygen.

Can you just pass by this Stevia which has such a great charm?

Antioxidant which is higher than green tea by 5 times / Diet / Blood Sugar Control /
