Product packaging design is specially made for K-yamm only.

The packaging structure is in the form of an open drawer where the pouch can be easily taken out, and the paper wrapping the entire box containing 11 pouches is applied with traditional Korean paper. (Each recipe is written on the inside of the paper.)

It is knotted with paper straps and the overall packaging is eco-friendly and easy to recycle.

You can experience 11 samples and purchase them with a series of pouches of one food you like.
