Snail cosmetics askinDr. using YOUTUBE, Influsioners, WangHong, etc.

Here's how to explain the product effectively.

I wish you good results by using the information I gave you and your know-how.

First of all, we need a description to give consumers confidence.

1. It is produced in Korea. .

It shows the letters MADE IN KOREA on the product and "88: numbers on the barcode.

→ Please show the certificate of origin to the customer.

2. This product is being exported with FDA approval from Japan and the United States.

Japan FDA approval in 2011; U.S. FDA approval in 2014.

There is a Japanese letter written on the package, and it is the same product that we are exporting to Japan.

The NDC number is written in the middle of the back of the package, which is the U.S. FDA approval number.

→ Please show the Japanese FDA and US FDA licenses to the customer.

3. Why are snail cosmetics good for your skin?

Snail cosmetics askinDr. using YOUTUBE, Influsioners, WangHong, etc.

Here's how to explain the product effectively.

I wish you good results by using the information I gave you and your know-how.

First of all, we need a description to give consumers confidence.

4. This product is being sold at the famous Shilla Duty Free Shop in Korea.

5. In China, it is also sold in the shopping mall of Commercial Bank and WANDA Department Store in Shanxi Province.

They sell snail cream for USD40.

It is now sold at a special price.

1. Make-up starts with clean skin. (Demonstration of Oxygen Bubble Pack Wash)

First, for clean skin, I will introduce oxygen bubble pack wash. Usually, soap and liquid cleanser are used when washing your face. This product is completely different from the cleansing products that we've used so far.

It automatically absorbs oxygen from the air and creates oxygen bubbles.

Fine oxygen bubbles remove impurities from your pores.

If you can't demonstrate the customer's face, apply it on the back of one hand and show it.

➔How to use : Please look at the separate document.

1) When you use a new one, you need to press it about 5 times before it comes out.

Apply it on the back of one hand and wait for about 30 seconds to explain what's ahead.

2) Explain that when the white foam starts to swell.

It's an oxygen bubbles.

3) When oxygen bubbles begin to form, rub them like a massage with two to three fingers on the other hand.

(Explain to massage for 3 to 5 minutes at home.)

You can see more oxygen bubbles if you rub them.

1. Make-up starts with clean skin. (Demonstration of Oxygen Bubble Pack Wash)

- 4) Massage with fine white foam to help smooth out wrinkles.
Emphasize the presence of pearl powder/pulling with whitening effect.
Place the back of the hand of the customer in the demonstration close to her nose to let her smell it.
A typical liquid cleanser removes foam quickly.
But this product is definitely different.
- 5) We don't have time for the show, so rub it for about a minute, and then use warm water.
After washing, compare her hands.
(If there is no warm water, wipe the foam with a wet tissue and remove the moisture with a paper tissue.)
- 6) Let her see for herself the difference in color, texture, and fragrance on her hands.

What's the result?

2. Snail Cream Demonstration

- 1) You've got a lot of cream on your second finger, and then you can use your first finger. It shows the shape of a string.
- 2) Apply snail cream on the back of her hand.
- 3) Let the customer check the absorption and stickiness of the other hand, and the scent directly on her nose. **Also, please ask how it is.** Please ask how much it absorbs well and is sticky.
- 4) Many companies make and sell snail cream, but the quality is not all the same.

askinDr. snail cream uses NANO-technology to improve absorption and eliminate stickiness, which is different from other companies' products.

Women in high humidity areas, near the beach, especially Tokyo, Osaka in Japan, Shanghai and Shenzhen in China which are hot in summer, hate the stickyness of cosmetics. askinDr. snail cream has already been sold there and has been confirmed to be of good quality.

- 5) Please compare the back of her hand with the oxygen bubble and snail cream again.

3. CC Cream Demonstration

- 1) It has three functions: sunblock, whitening, and wrinkle improvement.
- 2) It also has a foundation function to brighten your skin.

It's a product that girls in middle and high school want.
Because it makes her skin bright.

- 3) BB cream is suitable for people with white skin,
but CC cream is good for people with dark skin, especially men.

The reason for this is that it can be expressed naturally
by color change depending on the skin color tone.

This product is also needed for men
who have rough skin as they get older.

- 4) If you don't have time in the morning,
just apply CC cream.
- 5) It is more effective if you apply CC cream
after applying snail cream.
- 6) After applying CC cream, compare it
with the back of her hand.

The back of the hand with three things on it
and the back of the hand without.
