

**NEW**

Smart Freezer & Fridge Storage Tray

**Premium**

**RRe** Available in 4 types

**Material :** Polyethylene

**Cold & Heat Tolerance :** -49°F ~ 176 °F (-45°C ~ 80 °C)

**Color :** Blue, Pink, Green, White

**Dimension :** Clover : 145 x 230 x 30mm (7.5ml per cell)

Medium : 145 x 230 x 28mm (15ml per cell)

Large : 145 x 230 x 35mm (45ml per cell)

X-large : 145 x 230 x 55mm (100ml per cell)

**Country of Origin :** Made in Korea

### Take out the contents easily like pop up!

By adding the pressing function on the bottom side of the tray, after freezing the ingredients and store them in the freezer, you can easily take out the ingredient from the freezer simply by pressing the bottom side of the tray. Also, you can take out the necessary amount of ingredients from the tray because the amount kept in each cube is written on the tray.

- It is easy to take out the ingredients at any place and whenever you need by pushing the round button on the bottom.

### Refrigerator can be organized cleanly and neatly!

Instead of black plastic bag containing the ingredients, you can organize the freezer compartment neat and bright by keeping the ingredients in the tray by color.

### It is possible to keep the ingredients hygienically because each tray has lid!

With the individual lid, odor can be blocked and ingredients can be stored hygienically and transparency of the lid and tray makes it possible to identify the contents inside easily.

## Advantages of Premium RRe

### 01. It can be cleaned with a dishwasher.

Unlike conventional products, it has been developed using a new material with heat-resistant temperature limit of 80°C and cleaning can be done in dishwasher.

(Heat-resistant temperature described on the tray is 80°C, but it actually passed heat-resistant temperature test of 98°C)

### 02. Unbreakable strong durability

If physical impact is given at frozen state in the Storage Tray, there is a risk of breaking, but the new material used in this tray has the durability not to be easily breakable.

(We have durability test report which certifies that this tray does not break even after 5,000 times of push)

### 03. Sealing power without spilling

The double structure of the lid enhances the sealing power to prevent water from leaking without using rubber packing.

(Sealing power is strengthened not to allow any water leakage when the lid is completely closed after filling up water)

## 4 types of premium RRe

• **Clover Mini (RC24)**  
½Tsp./7.5ml/0.26oz  
Blue / White

• **Medium (RB15)**  
1Tsp./15ml/0.53oz  
Pink / White

• **Large (RB06)**  
3Tsp./45ml/1.59oz  
Green / White

• **X-Large (RB04)**  
7Tsp./100ml/5.29oz  
Pink / White

Keep the amount of food ingredient just for one time use in each tray!

## Certification status of Premium RRe Tray

Premium RRe Tray is manufactured in Korea using the best raw material and No bisphenol A is detected from it. It is harmless and safe storage container for human body which passed US FDA, Germany LFGB.

## Double Save D Cutting Board

special · separation · smart

**Material :** PP COMPLEX

**Heat resistance range :** -68°F ~ 248 °F (-20°C ~ 120 °C)

**Color :** Dark Gray

**Specification :** 39 X 29.7 X 2.5cm

**Dimension of storage compartment :** (L) 15.4 X 9.6 X 2cm

(R) 16.8 X 9.6 X 2cm

**Total weight of the product :** 610g

**Country of Origin :** Made in Korea

\* It is harmless to human body as it passed the safety test

### Take care of cooking chores at once without piling up of dishes to be washed~!

Dishes that piles up whenever you  
prepare cooking Smart cutting board  
that can solve them at once!

Ridge and grove to  
prevent spilling over

### No more worries about the liquid that spilled all over the cooking counter!

Structure that prevents the spilling over of the  
sticky juice (liquid) and materials  
onto cooking counter!

Liquid drainage outlet

### Liquid drainage outlet preventing waste of cooking ingredients!

Even the fruit juice (liquid)  
in the groove can be utilized  
by pouring them into cooking bowl!

**Take care of food ingredients at once by utilizing small storage compartment as the cooking dish!**

Food ingredients can be handled conveniently without spilling over the gas stove!

**No more worries about germs! Thorough cleaning**

**120°C**

No more worry about hygiene!  
Can be washed in dish washer!  
Can be disinfected in boiling water!

Scale function by gradation mark

**Master of food ingredients cutting! Scale function with gradation mark**

With gradated scale in the unit of 'cm',  
This cutting board enables you to cut nicely in equal length!

Silicon packing

**Safe silicon packing to prevent slipping!**

With the help of silicon packing at 4 sections of the board, Double Save D Cutting Board can be used comfortably without the concerns for slipping of the food ingredients!

**Can be utilized as 1 large dish + 2 small dishes!**

Convenience that requires no separate dish!  
Simply put large quantity of ingredients in the storage compartment and when separate storage is needed, put ingredients in small storage compartment!

Smart Freezer & Fridge Storage Tray

# RRe Big

**Material :** Polyethylene

**Cold & Heat Tolerance :** -49°F~ 176 °F (-45°C~80 °C)

**Color :** Blue

**Dimension :** 236 X 153 X 87mm

**Capacity :** 1200ml (40.5oz)

**Country of Origin :** Made in Korea

## Usage :

1. Large volume, variety of food ingredients can be stored  
Crab, shrimp, mussels, shellfish, squid, various seafood, broth, bark, vegetable, fruit, pettitoes, ribs, etc.
2. Vegetables remaining after cooking such as fruit husks, lettuce, etc. can be collected and stored in frozen state for future use

## Advantages of RRe Big

### 01. Inclined slide

You don't need to take out frozen food ingredients with hands; instead, food ingredients can be taken out from the tray neatly and hygienically without using hands.

### 02. Easy to hold with fingertip

With the design easy to hold with fingertip, you can easily hold the tray stored in the freezer with your fingertip instead of holding it by hand.

### 03. Hygienic storage

Hollowed oval grooves are formed at the bottom of the tray.  
It is designed to allow the blood from raw meat or fish to be stored separately.

### 04. Easy to take out contents

If you twist and press the bottom of the tray lightly, the food ingredients kept in the storage tray in frozen state can be taken out easily like Pop Up!

With a capacity of 1200ml, big volume of food ingredients can be stored easily and conveniently!

RRe tray is made of new material with heat-resistant temperature of 98°C so that cleaning in dishwasher is possible.

With the double structure of lid, water does not leak so that even meat broth can be stored!

With the translucent individual lid, odor protection and hygiene storage is possible.

Durability is upgraded and strengthened to prevent breakage and it passed durability test of enduring 5,000 times pressing without breakage.
