### Design Philosophy

“Draw an object (AIRTEC Air Purifier) that traps the flow of air by adding, dividing and combining cubes which symbolizes human technology into a circle that represents nature.”

The motive is based on the wavelength of a drop of water on clear and calm water. AIRTEC's design began with an inspiration from 'Water Drop = Pure Crystal = Sphere' AIRTEC CO.,LTD's small, but beautiful and strong air purifier will change and develop will continue.

CEO **SUN YOUNG PARK**

All of AIRTEC's air purifier is designed to be affordable, efficient and beautiful.  
Hope this product to be necessary for the maintenance of human health, better quality of life and remain as a valuable companion.  
We wish to coexist beside customers.

## AIRTEC Filter's TECHNOLOGY

# AIRTEC's core advanced technology 'e-Nano Film Filter'

## Purify 0.1 $\mu$ m fine dusts and as well as other contaminants

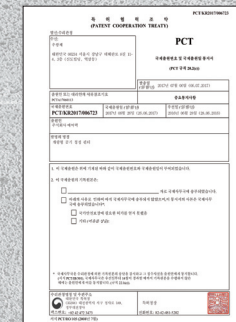

e-Nano Film Filter absorbs pollutants in the air sucked into an air cleaner using permanent electrostatic force to supply filtered, pleasant air only. And it is also excellent in eliminating ultrafine dust, car exhaust fumes (NOX, SOX), VOCS, virus, allergen, mold, mycete, bacteria, cigarette smoke, and carbon monoxide (CO) and in fighting against sick house syndrome and sick car syndrome.
