Morning Wrap

Fresh & Clean

J & J Co., Ltd, PVC Wrap Manufacturer with Special Team, produces Customized Premium Food Wrap Quality and Production Line to supply Overseas Markets with Unlimited Customer Satisfaction Plan.

Our products based on Wealth of Accumulated Technologies are clearly distinguished from Other Casting or Blown type PVC cling films.

Our PVC Food Wrap is made from Vegetable Plasticizer, characterized by clear transparency, strong clinging effect, tensile strength, elongation, anti-fogging, oxygen permeability and long-term preservation.

Our Premium qualities have already been certified by the FDA.

Let's make Smart Green World Together!

Morning Wrap - Commercial Use

Care about Nature
Care about People

Morning Wrap

Fresh & Clean

Product	Width (mm)	Length(M)	Core	Material	Color
Morning Wrap	150~500	30~3,000	38 & 76 mm	PVC	Transparent or Gold Chambray

1. Thickness : 8 Mic to 50 Mic Controlling 8 ~ 10 Microns in Production are Difficult but we Got Technical Know-How to make Stable Premium Quality.
2. Width : 150mm to 500mm - Main order size 300mm to 450mm.
3. Length : 30M to 3,000M - Main order length 600M to 1,500M
4. Color : Transparent to Gold & Adjustable Wrap color upon request.
5. Anti-Fogging & Oxygen Permeability : Excellency enable to keep Foods etc. Fresh & Longer Period.
6. Clinging Effect : Excellency Secure Foods etc. Safe & Hygiene. Controlling Self-Adhesiveness in production is Pretty Difficult but we Got Recipe to make Strong and Weak Cling Film.
7. Application : Expanding PVC Food Wrap Application Rapidly to all kinds of Foods, Fruits, Vegetables, Fishes, Meat, Poultries and Food Factories, Grocery Shops, Packaging Mills etc.

Machine Film - Auto Packing Machine Use

Machine Film Application

- Keep fruits and vegetables more greenly
- Keep meats and seafood fresher
- Keep fermented food taste like just made

Ishida, DiGi, Ulma, Ossid, Omori, Hobart, Automac Machines

1. Thickness : 10 Mic to 30 Mic Controlling Machine Use Wrap in Production are Difficult but we Got Technical Know-How to make Stable Premium Quality.
2. Width : 150mm to 500mm - Main order size 300mm to 450mm.
3. Length : 500M to 1,500M - Main order length 1,000M to 1,500M
4. Color : Transparent to Gold & Adjustable Wrap color upon request.
5. Anti-Fogging & Oxygen Permeability : Excellency enable to keep Foods etc. Fresh & Longer Period.
6. Clinging Effect : Controlling Clinging Effect for Machine Use Auto-Wrap in Production is Pretty Difficult but we Got Recipe to make Weak Clinging Effect for Machine Use Wrap.
7. Application : Expanding PVC Wrap for Automatic Packing Machine Application Rapidly to all kinds of Foods, Fruits, Vegetables, Fishes, Meat, Poultries and Food Factories, Grocery Shops, Packaging Mills etc.

Machinery – PVC Wrap Casting Line

New Concept of PVC WRAP CASTING LINE (MODEL #JJ100-28/1600) is Developed and Installed at the end of 2013 in J & J Korea. It shows and provides the World Class PVC Wrap Casting Line, which is capable of producing consistent Premium wrap quality with Unique Climate Control system, with 25% More Productivity (450 Tons per Annum) than Conventional 90-28/1600 Casting Line.

SUPER & COOLING MIXERS	Mixing of PVC Resin with Several Additives by Heating of Impeller, Agitating and Cooling to make Premium Compound
VACUUM HOPPER	After Intake of Compound materials without Air provide it to the Extruder
EXTRUDER	Compound through the Supply, Compressor and Melting parts
T - DIE	Processing of Extruding after adjusting the same gauge of the Resin from the Extruder.
CASTING UNIT	Film Forming Process after Chilling With Proper Temperature from T-Die
TURRET & WINDER	Cutting and Winding Process
HI - PELLETIZER	Casting Line Edge Trim Recycling Machine
AIR BUBBLE UNIT	Vacuum Chamber Removing Air Bubble
DUST COLLECTOR	Air Purification System
CLIMATE CONTROL SYSTEM	Controlling Production Hall's Ideal Temperature and Moisture
SIDE CUTTING INSPECTION	Cutting Process to make Neat Roll Edge & Final Inspection

J & J PVC Food Wrap - General Features

The Latest Smart System, Human Friendly Plasticizer, Global Export Premium Brand

Materials	PVC, Vegetable Plasticizer, ESO
Film Type	Stretch Film
Processing Type	Casting
Paper Core	ID 76mm + 6T ~ 12T Or ID 38mm ~ 50mm +1.5T ~ 5T
Usage	Cling Film for Food Grade Hand (Manual) Wrap Or Machine Wrap
Feature	Moisture Proof
Hardness	Soft
Transparency	Excellent
Color	Transparent Or Gold Chambray
Anti - Fogging	Excellent
Oxygen Permeability	Excellent
Food Contact Safety	Listed on FDA & KFDA
Clinging Effect	Excellent & Adjustable upon Request
Brand Name	Morning Wrap, Morning Wrap Gold
Place of Origin	Republic of Korea
