Natural ion Calcium

Mineral Cosmetics

"How good would it be if we can use surprising power of minerals in our skin care?" This was the question that we had had deeply in our mind. Calcium(mineral) discovered in the pearl layer of the oyster shell, which is called the ginseng of the sea, delivers strong effects of natural energy and vitality to help you solve 3 skin troubles (irritation/dryness/keratin).

Uncommon Idea, Skin Care Born in Calcium

MiBA paid attentions to difference of calcium concentration
Between normal skin and troubled skin.

What happened to skin when it lacks calcium?

*Source : Mauro T, et al, J Invest Dermatol 111 : 1198-1201, 1998

When skin lacks calcium, it loses balances
And turns into troubled skin.

Amazing Skin Care Effects!

Numerous numbers of papers have scientifically verified
efficacy of ion calcium to skin.

"It is the best choice that I have made in recent years"

Customer Choi, Hyo*

I placed the Spray on my office table and used it whenever I wanted to. I also placed it on my bed table and used it frequently. I think I sprayed it 2-3 times for an hour. I am really thankful for MiBA. I have been suffering from skin troubles for more than 3 years, but my skin has tranquilized within one week. I really think that there should be national-level advertisements for MiBA. I decided to not to get a Chinese herbal treatment for my oily skin when I heard it would cost more than a million won for 6 month treatment. Now, I act like an honorary ambassador of MiBA, giving its products to my friends as a birthday gift. I will replace all of my fiancée's cosmetics with MiBA!!

"Hot spring water seems to give me nourishments everyday."

Customer Kim, Jeong*

I personally like hot springs very much. MiBA products give me a feeling that I get nourishment from spring water everyday. My stubborn husband has started using MiBA cream. I will slowly replace all my cosmetics with MiBA products.

Best Foam Cleansing

Among 'Hwahae' customer reviews,

It is the product of my life. I have used other products in the middle, but I have come back to MiBA.

It completely removes all my make-up at once with smooth and moisturizing feeling. It is the best!

It has nice ingredients, good cleansing effects and no dry feeling. I love it!!

"I don't envy 100,000 won cleansing products."

Customer Jo, Jeong*

I touch my bare face often because my skin is so smooth without removing keratin separately. It is nice to know that my cleansing time is reduced to half. I have never experienced this effect when I used a very expensive cleansing. I am really wondering what kind of chemical principles bring this amazing effect.

"I should not praise all the time, but... it is so good!"

Customer Idh8124

I severely suffered from skin diseases and atopic skin especially at the change of seasons. I have used good cosmetics and natural cosmetics, but nothing solved my problems. I had 6 pieces of mask pack pieces. I saved the mask pack received in the experience kit and used it with other main products simultaneously. Well, I know I should not praise all the time, but...it is so good! I always thought that an advertisement about "baby skin" after using a product is simply an advertisement. Now, I totally believe all testimonies of MiBA customers and share the same feeling with them.

"Meet the Genuine Mask Pack!"

Customer lakeun

There are many types of mask pack, aren't there? Different size and different shape~ MiBA mask pack only contains something good for my skin without Paraben! Unlike conventional mask packs that only temporarily tranquilize skin, MiBA mask pack is really good for my sensitive skin, calming down pimples and brightening skin tone. After using the mask pack continuously, I come to realize that my skin condition has improved greatly for 6 days!

"Many people tell me my skin conditions are much better now!"

Customer alice9150

I still have some traces but I don't have any more pimples!
My skin type was oily with lack of moist, but now it is medium oily, I think.
Sebum secretion clearly drops when moist is supplemented!
I am really glad that I come to know MiBA!!! Many people tell me
my skin conditions are much better now.
I'll keep using MiBA continuously.

"Moisturizing Feeling Lasts 'till Evening~"

Customer ohn9268

I actually was half in doubt when I ordered the product. I was not certain if this cream gives moisturizing effects as much as I want. After using the product, I don't doubt anymore. When my skin is very dry, I apply a thin layer of cream once for absorption and then apply again with light tapping. Moisturizing feeling that I get from the cream in the morning lasts until evening. I'm posting the pictures taken before using the ultra rich cream and after using it, along with the enlarged picture. You can tell the moisturizing feeling after applying the cream lasts as it is until evening.

"Cream Right for Me"

Customer 777jeun

Finally, I received the product today!
I tried it before makeup and after cleaning my face. Makeup is well absorbed.
I lightly tap my skin continuously for better absorption.
I used to use a water cream, but I think I should use this ultra moisturizing cream from now on. The water cream seems not to provide enough moisturizing effects for me. Therefore, I think the ultra moisturizing cream is right for me.
It is easy to carry because the container is small.

"If you endure like me, you will have a happy day like me!"

Customer Lee, Da*

Still having some traces, but do you see my silky skin? I once couldn't meet my friends, nor could go to a hospital when I felt hurt... Now I promise to my self I'll take a good care of my skin...What's really surprising is that my jaw was never itchy when I was using MiBA for one week. My jaw used to be always itchy more than 2 times a week, but no more itchiness until now! I hope you can have some comfort by reading my comments. If you endure like me, you will have a happy day like me! Everything requires some sorts of patience. Everyone cheer up!!

"I didn't quite know its effectiveness when I used it. However, I felt clear differences when I didn't use it."

Customer naani820

I started using this product with the mind that trying wouldn't hurt. What surprised me first was that it doesn't give a rough feeling and no conditioner or hair treatment is necessary... Hair loss is clearly reduced... During this vacation, I was shocked to see how much hair I lost when I washed my hair with another shampoo equipped in a hotel I didn't quite know its effectiveness when I used it, but I felt clear differences when I didn't use it...

"I can witness its effectiveness by my own eyes. Do you see it, too?"

Customer Ahn, So*

The area with the most effects was the top of my head. I could somehow hide my side areas, but I had hard time hiding the top. But I could evidently see its effectiveness in the top of my head. Do you see it, too? If my hair loss has improved this much even less than a month, I think there is no way for me but to expect more and keep using this product. In addition, what attracted me is that I don't need any conditioner or hair treatment products once I started using this shampoo. Nevertheless, I see my hair is soft and fuzziness has greatly improved.

"This toothpaste is indispensable for me and my family."

Customer Aida3002

Toothpastes for grownups are spicy. It has more contents, too...
That's why I started using MiBA toothpaste.
I like it more than children's toothpaste because it has pleasant finish with no taste.
As it does not have any particular taste, I can feel the original taste of the food when I drink an orange juice or eat other food such as oyster after brushing my teeth. Clear-type, thick toothpaste gives me such a refreshing feeling after rinsing!

"What is this toothpaste? I'm still puzzled why my pain is gone."

Customer Hwang, Hyeong*

I suffered from gum pain for several months. Since I used this toothpaste, my gum has become healthy. My pain got better in about a month. The pain had came back sometimes but disappeared permanently at some points. My molar pain has greatly relieved within a month of using this toothpaste, and it has completely gone when I used it for a year. If you don't believe that you can treat your gum pain with toothpaste, just try this toothpaste one month. You will notice it yourself.

"My skin tone is totally different after using this product for 5 days.
I notice it when I take a picture."

Customer Noh, Young*

I have redness in my face. I didn't expect much from this product and I simply started using it hoping for less wrinkle creation... When I took a picture, I noticed totally different skin tone after using this product for 5 days.
I really like this product because it doesn't give any irritation to my sensitive skin. And I feel good while applying this product because it is well absorbed with good fragrance.

"I'd like to boast of this product!"

Customer Kim, Mi*

I received a great benefit from this product throughout the winter. I'm writing this comment after using the last drop of the product. I'll keep using this ample because it reduces my fine wrinkles. My nasolabial fold lines seem to be less deep. Even though I know I can't beat the flying time... With hoping mind that this ample may delay further progress of my fine wrinkles generated by dryness into thicker wrinkles...I think I have used up this ample in 4 months. I applied the ample using a pipette intensively around my eyes and nasolabial fold lines. I hope my comments help you.

"My baby doesn't scratch and whine from itchiness at night as frequently as before."

Customer Gang, Min*

After using the product for about 2 weeks, moisture remains in her body even though I don't apply the lotion as frequently as before. I realized that self-purification capacity of my baby's skin itself has improved thanks to continuous use of spray and lotion. It seems that my baby like it very much when I apply the lotion with a baby massage after daily bathing. I am really glad that redness and atopic skin troubles of my baby has greatly improved, too!

"I purchased this product because my skin becomes sensitive, too."

Customer wjdqhdfla

My skin becomes sensitive along with my baby's. I purchased this product because the advertisement is fancy. And the product catches my fancy, too! I clearly notice the different in my skin, not to mention of my baby's skin. I order 4 sets when this product is on sale to use this product as much as I want with my baby.

"Complete clean, not only bottle, but also teat"

Customer FineApple

I cannot tolerate synthetic chemical detergent residues remained in the baby dish and bottles. SumSumOkSoo completely washes out everything with a pleasant finish. And it is cheaper than other baby cleaning detergents in the market. I can't control my amazement of how good product it is!

"I can trust this product!"

Customer Yoo, Hwa*

I am exclusively using it for my 70-days old baby. It is clearly more moisturized and thicker than other wet tissues. I clearly notice the difference of thickness when I happen to use other products than MiBa's. Most of all, I like this product because I can trust it!
