ZAIGLE

11 Advantages

1 Delicious ZAIGLE like a charcoal grill!

Crispy on the outside because it's cooked with infrared just like a charcoal grill! Moist in the inside! (Taste charcoal grilled juicy meat!)

2 NO more worries about smell, smoke and oil splash!

Even when cooking the pork belly and fish indoors, you can enjoy the clean cooking without smell, smoke and oil splash!

3 Thawing and cooking at the same time!

No more thawing of the frozen ingredients. ZAIGLE can do the thawing and cooking at the same time! (Easy thawing)

4 Healthy cooking without oil!

Ingredients are cooked only with their own oil. Unnecessary oil is squeezed into the oil receiver! ZAIGLE can transform soggy fried dishes into a newly fried crispy dishes without oil! (No oil is needed)

5 Simple to use, just turn on the power!

Just turn on the power without pouring water or using oil! Easy to use with one touch lever, super simple!

6 Just clean the grill and oil receiver. Easy and simple to clean!

Removable grill convenient to use and clean and a large oil receiver pulled out in both direction! Easy and Simple! Less oil splash and meat stickiness makes cleaning simple.

7 With ZAIGLE! 7 Functions! Various easy cooking! Practical use!

No need to use different cooking utensils (electric grill, electric oven, fish grill, microwave oven, frying pan, toaster, air fryer) for different ingredients. Just use ZAIGLE! Everyday grill simple and convenient to use!

8 Even for indoor cooking! NO worries on harmful gas! Clean cooking~

ZAIGLE uses the lamp method like fluorescent lamp instead of oxygen combustion method, leading to fresh indoor cooking, less smell, smoke, oil splash and nearly no harmful gas. With the clean lamp method instead of sparking type, clean cooking is possible without worrying about harmful gas even when air conditioner or heater is on.

9 ZAIGLE's well-cooked and less-burned healthy and fast cooking method!

ZAIGLE cooks the food with infrared from upside and bottom for faster cooking. The food gets cooked like boiled meat and browned. No need for long roasting. (Don't burn the food, eat healthy.)

10 Affordable use cost!

ZAIGLE uses the lamp method as affordable as the fluorescent lamp, leading to low electricity bill. Even when used for 1 whole hour, the electricity bill will be less than 100 Korean won. (Even when used for 1 whole month, the electricity bill is less than 3,000 KRW! (Excluding the progressive tax) Also, it is economically efficient compared to energy use with its double heating from upside and bottom using the radiant heat and upper direct heat.

11 NO MORE one person cooks and another eats. The whole family can enjoy ZAIGLE including housewives.

Even when cooking the pork belly and fish indoors, you can enjoy the clean cooking without smell, smoke and oil splash!
