## 1.1.1. Enrolling as a buyer (1/4)

You can enroll as a “buyer” if you want to purchase goods.

tradeKorea.com provides various services free of charge to help their buyers find the products they need.

Click on the [Sign in | Join] located at the top of every page of tradeKorea.com to sign up.

You can join after selecting Korea or Global.

Any buyer can switch to a seller after enrollment, but administrator approval is required.

## 1.1.1. Enrolling as a buyer (2/4)

Mobile phone certification and email authentication are available for personal authentication if you want to enroll as a Korean member.  
Select the authentication method and proceed with the enrollment procedure. (Only the email authentication is available for overseas members.)

Please select certification method

## 1.1.3. Approving same corporate sellers (corporate members) (1/2)

You will be guided to this page to request the use of a duplicate company and its business information if you enter a duplicate business registration number for your company information.

We will send an email requesting the approval to the member who first registered the duplicated business registration number when you click the "Request" button.

### Registration number certification

Registration Number

The business registration number you entered is registered with the following information.

- Company Name : tradeKorea
- Company Address : 511 Yeongdong-daero, Gangnam-gu, Seoul, KOREA.
- President : Hong, gil dong

If your company information is correct, please click the Request approval button.  
After approval, they will be converted into corporate members.

Request

If your company information is wrong or you have a problem, please contact the matching team.

- Call: Korea International Trade Association Call Center (02-1566-5114)
- Email: tradeKorea@kita.net
- Contact Us : Contact Us

### 1.1. Enrollment

We request approval from the primary member who used the company information in the case that an enrollment application uses duplicated company information for authentication.

We send the above email to the primary member who used the company information, and the applicant can obtain seller authority when approved.

tradeKorea.com categorizes its members into 5 grades according to their activities.  
We categorize the members monthly by recalculating their activity scores over the past one year.

The supplier grade is displayed at the top of the search result page, product details page, and company information page to indicate the credibility of the members.  
You can increase your supplier grade by being more active in product registration, inquiry, selling, and buying.

※ See next page for the basis for supplier grades.

tradeKorea.com categorizes its members into 5 grades according to their activities.  
We categorize the members monthly by recalculating their activity scores over the past one year.

The following table shows the basis for member grade calculation and benefits for each grade.

Grade	Basis for calculation
Grade 1	Members with an activity score of 75 points or higher are grade 1 and receive five crowns. The benefits include exposure of the company at the top of the search result page and five crowns displayed on the product details and company information to raise company credibility.
Grade 2	Members with an activity score of lower than 75 points are grade 2 and receive four crowns. The benefits include exposure of the company at the top of the search result page and four crowns displayed on the product details and company information to raise company credibility.
Grade 3	Members with an activity score of lower than 50 points are grade 3 and receive three crowns. The benefits include exposure of the company at the top of the search result page and three crowns displayed on the product details and company information to raise company credibility.
Grade 4	Members with an activity score of lower than 25 points are grade 4 and receive two crowns. The benefits include exposure of the company at the top of the search result page and two crowns displayed on the product details and company information to raise company credibility.
Grade 5	Members with an activity score of lower than 10 points are grade 5 general members and receive one crown. You can increase your supplier grade by being more active in product registration, inquiry, selling, and buying.

※ See next page for the basis of activity scores.

tradeKorea.com categorizes its members into 5 grades according to their activities.  
We categorize the members monthly by recalculating on their activity scores over the past one year.

The following table shows the activity types and the basis for activity scoring.

No.	Activity Information	Weight Factor	Remarks
1	Trade amount	20 points	The total trade amount is calculated by adding the amount of sales in tradeKorea in the past year and the post-management amount input by the Matching Team.
2	Login frequency	40 points	The login frequency points are calculated as the number of logins to tradeKorea in the past year (multiple logins per day allowed: all logins during one day using the same ID are counted).
3	Response rate	40 points	The response rate is calculated as the percentage of answered inquiries. A response rate of 80% is given to a member who has not received any inquiries.
Total		100 points	

You can enroll as a buyer by only registering basic information.  
You can receive more services from tradeKorea.com if you enter additional company information.  
Select My tradeKorea > My Accounts > Profile after login to change company information.

## 2. Help With Seller Activities

1. Information management
  1. Company information management
2. PR
  1. Buying leads search
  2. Using C/L (Circular Letter)
  3. Top-searched keyword
3. Reliable Company Certification
  1. Reliable Company Certification

### 2.1.1. Company information management

You must register your company information to act as a seller in tradeKorea.com.

Your company will be exposed first if you register the "Company related info" in addition to the basic company information.

The screenshot shows a form for registering keywords and product categories. At the top, there is a 'Keyword \*' section with four input fields containing the text 'PHONE', 'IPHONE', 'APPLE', and 'JOBS'. Below these fields is a small text instruction: 'Please input keywords (up to 4 keywords) related to the product. One keyword per blank.' To the right of the keyword fields is a help icon (a question mark in a blue box). Below the keyword section is the 'Product Category \*' section, which features a large text input field, a 'Search' button, and a help icon. Below the input field, two category suggestions are listed: 'Business Services > Assurance Services' and 'Apparel > Apparel Stock'. At the bottom of the form, a note states: 'Click 'Search' to search for product categories and choose the most appropriate category for your product.'

Segment the categories of your products and register them. Your products will be exposed in the corresponding segmented category.

Then register keywords related to your company. Your company will be show up in more search results if you register more keywords related to your business.

The screenshot shows a form for registering a page title and description. The 'Page Title' section has a text input field, an 'Edit' checkbox, and a help icon. Below the input field is a text instruction: 'If you input a page title, then it can be effective for your product marketing because a user can move directly to the detailed product page from the search engine results.' The 'Page Description' section has a larger text input field, an 'Edit' checkbox, and a help icon. Below the input field is a text instruction: 'If you input a Page Description, then information about the product can be checked in combined search engine results.'

Register information that represents your company. tradeKorea.com provides SEO (search engine optimization) service to promote its member companies by exposing them to search results not only in tradeKorea.com but also in other leading search engines. Enter keywords related to your company business and a title that represents your company and then register a description to introduce your company or products in order to have a higher chance of being exposed at the top of the search results.

A seller can search buying leads registered by a buyer in the [Buying Leads] section on the main page of tradeKorea.com and send an inquiry promoting the seller's products. Click the "View more" button to move to the Buying Leads page. You can also search Buying Leads by category.

New Buying Leads

### 2.2.3. Top-searched keyword (1/2)

The most important factor in product promotion is gaining as much exposure in the search result as possible.

Many buyers will be able to see the product if it is at the top of the search result.

The Top-Searched Keyword Service can link a keyword to a product for a week.

You can apply for the service from the [My tradeKorea > My Products > Top-Searched Keyword Service] menu.

## Top-Searched Keyword Service

### Register Keyword & Product

Keyword \*

Please enter a keyword that is most related to your product(s).

Product \*

Select my product

Dot Watch, Tactile Smart Watch  
Period | 2018.05.17~2018.05.24  
Keyword | MOIST WIRELESS HUMIDIFIER

You can apply up to 12 times a year.

Submit

Dot Watch, Tactile Smart Watch  
Period | 2018.05.17~2018.05.24  
Keyword | MOIST WIRELESS HUMIDIFIER

Delete

Using the top-searched keyword exposes the product at the top of the search result page, increasing the likelihood for a buyer to select it.

A temporarily saved product is not officially registered.

Click "Submit" after completing the product information entry to be moved to the "Manage Products" list, and an approval request is automatically sent.

### 3.3.2. Product rejection

A product requested for approval may be rejected for the following reasons.

#### **-Product**

Inadequate product description (fewer than five lines).  
More than four words for a product name.  
Keyword not used in the product name (when using model number).  
Email address included in the product description.  
Korean included in the name or description.  
Identical product description.  
No product description.  
Broken link in product description.  
HTML error in product description.  
Table or chart error in product description.  
Other error in product description.  
Duplicated product registration  
External link in the product description.

#### **-Restricted word**

Prohibited product (drug, adult product, etc.)  
Infringement of intellectual property right (product, copyright, patent infringement)

#### **-Product image**

Email address on the image.  
Korean included on the image.  
No registered image.  
Image error/ distorted image.  
Inappropriate image 1: Unable to check the product.  
Inappropriate image 2: Improper product photo.  
Contact number visible on the image. Address of another site visible on the product image.

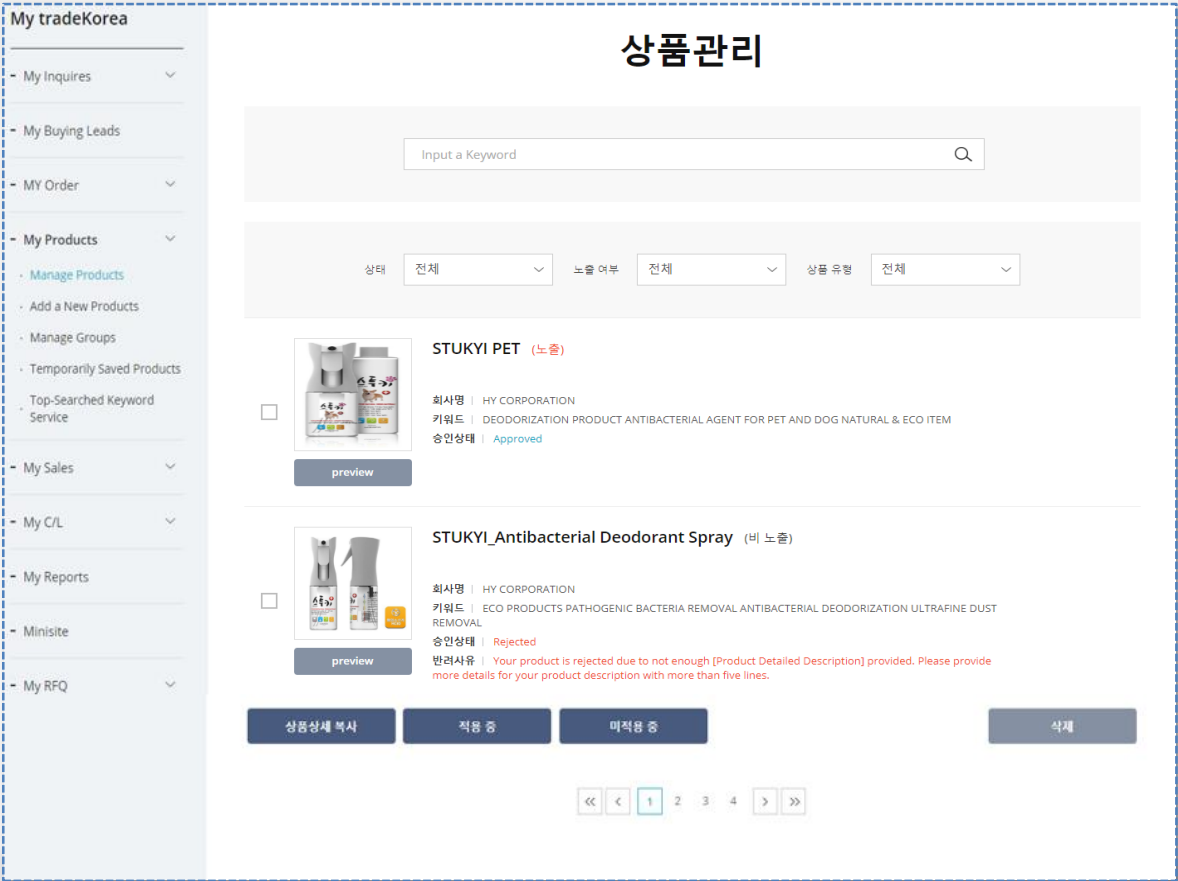

#### **-Company introduction**

Contact number included in company introduction.  
Korean included in company introduction.  
Broken link in company introduction.  
External link in company introduction.  
Email address in the company name.

#### **-Others**

Email address in the product description or company introduction.  
Hidden text.  
External link in the product or company description.

You can delete a product from [My tradeKorea > My Products > Manage Product] if you need to delete it for sales, production termination, or other reasons. When you delete a product, it will not be exposed in tradeKorea.com, online exhibition halls, or Minisite and is removed permanently.

- ▶ Click the “Delete product list or details page to remove the product permanently.
- You must register the product and get it approved again if you wish to sell a deleted product again.
- ▶ If you hide a product temporarily, it will not be exposed in the tradeKorea.com search results.
- Click “Apply” to change its status to public.

### 6. Selecting a reliable company

1. Selecting a reliable company

tradeKorea.com operates GBMS (Global Matching Service) to identify superior domestic manufacturers upon request by a foreign buyers and arrange their safe transaction. This service is for foreign buyers.

- ▶ To apply for the GBMS, click the tradeKorea service menu or banner on the main page to move to the GBMS application page.

A screenshot of the GBMS application form. The 'Contact Info' section includes fields for Country (South Korea), Company Name (trk002), Company Tel (00-444-2222), Name (First Name, Last Name, Position), E-mail (trk@trk.net), Homepage (http://daum.net), and Mobile Phone. The 'Sourcing Info' section includes a 'Buying Product Name' field (powerGGGG), a 'Product Category' dropdown, a 'Detail Product Info' text area, an 'Order Quantity' dropdown (1000), and an 'Upload File' button. There are '+ Add' and '- Delete' buttons between the sections.A screenshot of the 'Private Policy Agreement' section of the GBMS application form. It includes a 'Private Policy Agreement' heading, a 'I agree' radio button, and a paragraph of text. Below this is a section titled 'Through which channel did you get to know "Global Business Matching Service(GBMS)" (You can select multiple answers.)' with several checkboxes: 'Have been using "tradeKorea" website', 'Online Advertisement(Google, etc.)', 'Advertisement on magazine(Kompass) and leaflets', 'Referral by business contacts and friends', 'Trade fairs', 'Direct mails', 'Korea Int'l Trade Association(KITA) overseas branches', and 'Others'. There is a 'Submit application' button at the bottom.

A screenshot of a banner for 'KITA's Global e-Marketplace, tradeKorea.com!'. The banner features four icons and their corresponding services: 1. GBMS (Global Business Matching Service) with a globe icon, listing benefits: 'Analyzes sourcing req.', 'Find and screen Korean suppliers', and 'Receive contact info in 48 hrs'. 2. VIB (Visiting Buyer) Matching Service with a globe icon, listing benefits: 'Discuss sourcing req.', 'Check a list of recommended Korean suppliers', and 'Have meetings in Korea!'. 3. Request for Quotation (RFQ) with a document icon, listing benefits: 'Compare quotations', 'Contact suppliers', and 'Discuss details'. 4. Online Exhibition with a monitor icon, listing benefits: 'Find Korean suppliers easily', 'Preview future showcases', and 'Check recent showcases'.

- ▶ Fill out as much information as possible when applying for the GBMS to increase the matching probability. More detailed information will likely lead to more accurate matching results.

The GBMS Matching Team finds an optimal company and notifies you of the result. You can check the matching result and propose to do business.

### Matching Result

Dear Jon Blackwell It is glad to contact you. This is Dae-Keun, Kim working at Global Business Matching Team at tradeKorea.com in KITA.

We are pleased to inform you that we have searched & contacted the exact supplier as per your inquiry.

Below please find the related information that you could be directly reached.

#### Matched Supplier Info

✔ Jon Blackwell were matched with your company.

Matching company	Xperon Golf Co., Ltd.
Contact Name	Mr. Ahmed
Position	Manager
E-mail	trade2@xperon.co.kr
Phone	82-62-945-5880

We already informed the above person about your inquiry, and kindly asked to reply to you.

You will be able to get an email or a call from the company soon.

Please discuss more about detailed conditions & specifications with it.

If its terms do not meet your needs, please contact me immediately.

We will match you again with another supplier instantly.

I hope this matching would meet your business interests.

Should there be further inquiry, please don't hesitate to contact me.

Sincerely yours,  
Dae-Keun, Kim

The purpose of the VIB service is to find a Korean partner for a foreign buyer who plans to visit Korea. tradeKorea introduces the domestic manufacturer appropriate for the item that the visiting buyer is sourcing and arranges meetings with domestic manufacturers and factory visits.

- ▶ To apply for the VIB, click the tradeKorea service menu or banner on the main page to move to the VIB application page.

## 6. To Purchase Products Directly

### 1. Product purchase and payment

1. Sending purchase request inquiry (Buyer)
2. Sending Price Offer (Seller)
3. Receiving Price Offer and purchasing (Buyer)
4. Order form and payment (Buyer)
5. Confirm order (Seller)
6. Cancel payment (Buyer)

### 6.1.1. Sending purchase request inquiry (Buyer)

A buyer checks the information of the product to purchase and transmits their intention to buy using the Inquiry or Send Message function to the seller of the product.

The image displays a product listing for "STUKYI Antibacterial Deodorant Spray" by STUKYI. The product is shown as a white spray bottle with a black trigger nozzle. The listing includes details such as the category ("Home, Lights & Construction > Household Cleaning Tools & Accessories"), keyword ("eco products , pathogenic bacteria removal , antibacterial deodorization , ultrafine dust removal"), place of origin ("South Korea"), and supplier information ("HY CORPORATION", "KITA", "Country: South Korea", "Supplier Grade").

Overlaid on the product page are two forms:

- Send Inquiry Form:** This form allows users to send inquiries about the product. It includes fields for Subject, Product (selected as STUKYI Antibacterial Deodorant Spray), To (FIRST LAST), Inquiry Expires (2018-09-16), Quantity (1250 Pieces), and Expected price (450.85 USD). A button labeled "Send Inquiry" is visible.
- Send Message Form:** This form allows users to ask the seller about products. It includes a field for Classification (selected as Product), Subject, and Contents. A button labeled "Submit" is visible.

tradeKorea shares the purchase conditions agreed on by a seller and a buyer through the Price Offer and connects it to the purchase. The seller enters the product price and delivery information agreed upon by with the buyer, and the buyer can proceed with the order and payment after confirming the information. The seller can register the Price Offer from the My tradeKorea > My Sales > Manage Price Offer menu after logging in.

## 7. Inquiry Management

### 1. Sending Inquiries

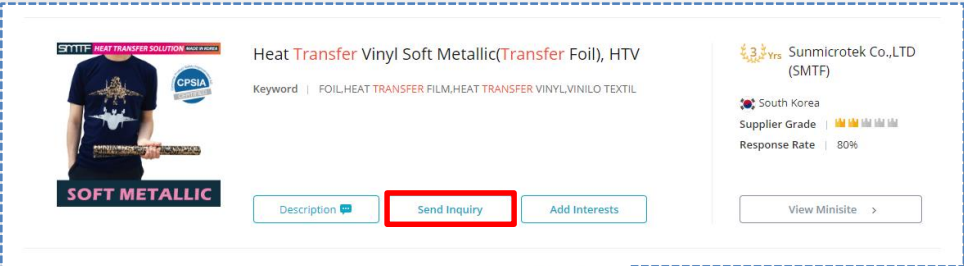

1. Generating inquiries
2. Checking inquiries

### 2. Managing Inquiries

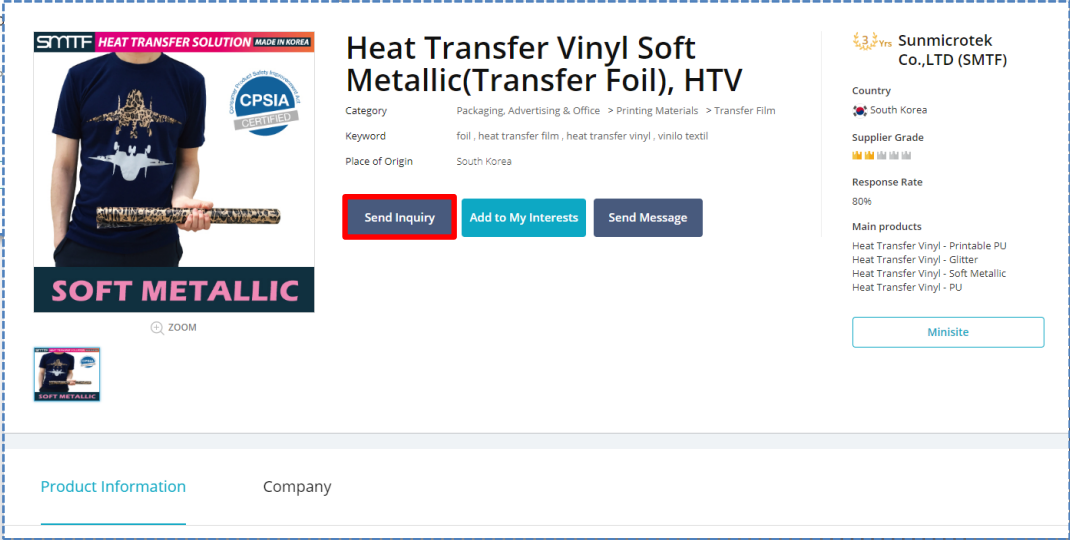

1. Deleting inquiries/ spam

An inquiry is an important step for business between sellers and buyers. Sellers promote their products through inquiries while the buyers deliver their purchase terms through inquiries. tradeKorea.com facilitates the sending of inquiries in various ways.

► A buyer can send an inquiry to a seller from the product list.

► A buyer can send an inquiry to a seller after checking the product information.

## 8. Minisite Operation

1. Domain generation
  1. Creating a domain
2. Minisite configuration
  1. Design selection
  2. Main page design
  3. Product menu management
  4. Other information management

### 8.1.1. Creating a domain

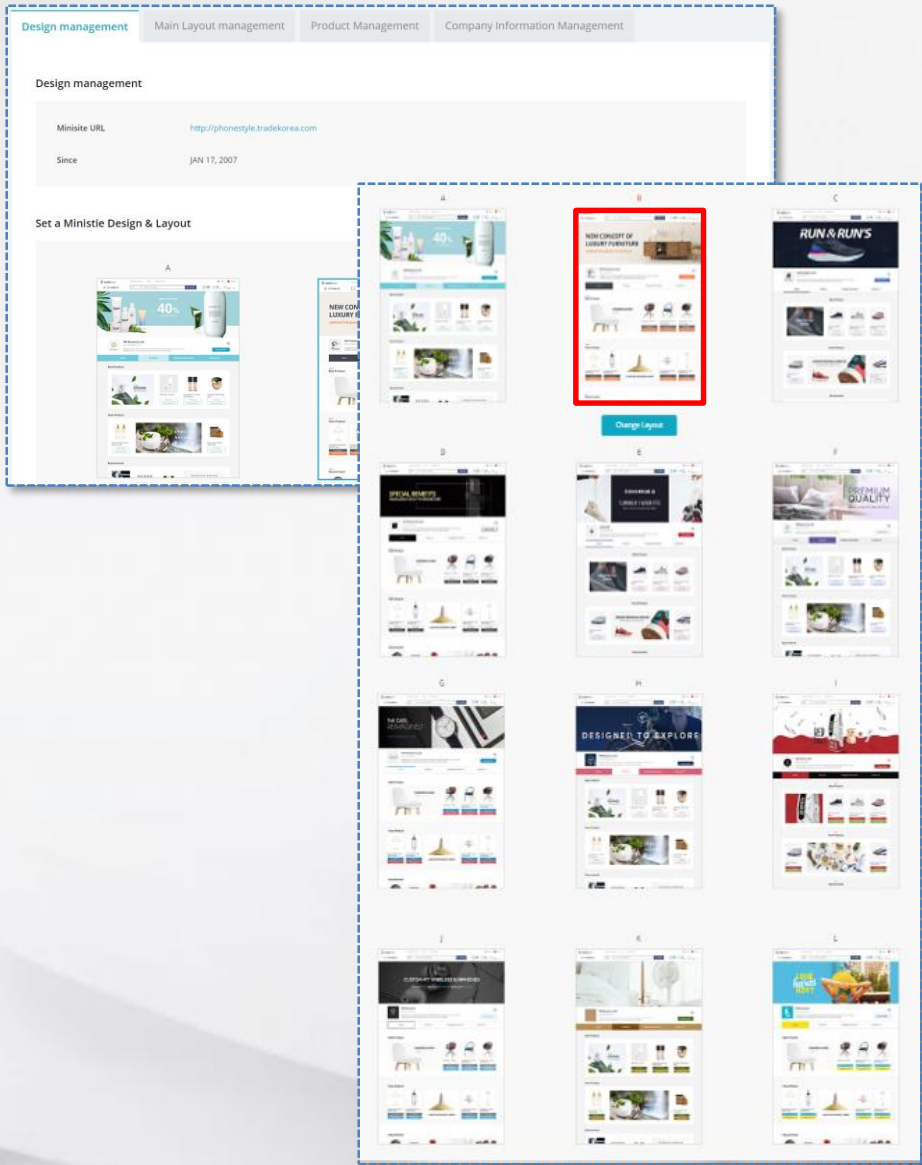

You must register the company information and then apply for a domain to operate Minisite.

tradeKorea.com provides designs to help sellers promote their company and products and operate Minisite conveniently.

The screenshot shows a web form titled "미니사이트" (Minisite). The form is divided into two main sections. The top section is for domain creation, with the label "미니사이트 도메인" (Minisite Domain). It contains a text input field preceded by "http://" and followed by ".tradekorea.com". To the right of the input field is a button labeled "도메인 중복 체크" (Check Domain Duplication). The bottom section is for visibility settings, with the label "노출" (Display). It contains two radio buttons: "노출" (Display) and "비노출" (Not Display). Below these buttons is a note: "\*미니 사이트를 노출할지 여부를 선택할 수 있습니다." (You can select whether to display the Minisite). At the bottom center of the form is a large blue button labeled "제출" (Submit).

Go to the [My tradeKorea > Minisite] page, enter the domain address, and click [Check domain duplication] to check if there are any duplicates. Use the domain that is relevant to your company or product name to ensure the best PR effect.

tradeKorea.com provides at least three designs to help operate Minisite. Select the design that is the best fit for your company and configure the Minisite. (Twelve designs are provided for KITA member companies.)

You must have registered product and company information to configure the Minisite. Register the information from the [My tradeKorea] menu first.

Use the tool provided by tradeKorea.com to select a Minisite design and configure the contents (product banner and product).

► Create product groups from the [Product Management] tab of the Minisite page. You must have a product group to configure products on the main page of Minisite. Select the products to be exhibited in the Minisite and click [Set Order].

► Users can flexibly create product groups by category, new products, TK pay products, etc.

- ▶ Insert the product or banner in each section of the main page.  
You can change the title for each section.  
You can also rearrange the sections by moving them around.

## 8.2.4. Other information management

You can register company information onto your Minisite.

The image displays the 'Company Information Management' interface on the left and the resulting 'Company Information' page on the right. Red boxes and arrows highlight the mapping between the form fields and the live page content.

- Header Image:** The 'Header Image' field in the management interface corresponds to the large koala image at the top of the 'Company Introduction' section on the live page.
- Head Summary Information:** The 'Head Summary Information' field, which includes a rich text editor, corresponds to the introductory text and smaller images in the 'Company Introduction' section.
- Additional Introduction:** The 'Additional Introduction' field, which includes a rich text editor and a video embed code field, corresponds to the 'PHONE STYLE' section and the video player on the live page.
- Company History:** The 'Company History' field, which includes a date selector and a description text area, corresponds to the 'Our History' section at the bottom of the live page.

▶ You can input company information differently from that on the basic company information registered in [Profile > Company Information].

You can include various contents, including your company's PR video, introduction, history, and more.

Please note that the company information in Minisite is not automatically updated in [Profile > Company Information].

## 11. How to use the My tradeKorea menu

### 1. How to use the My tradeKorea menu

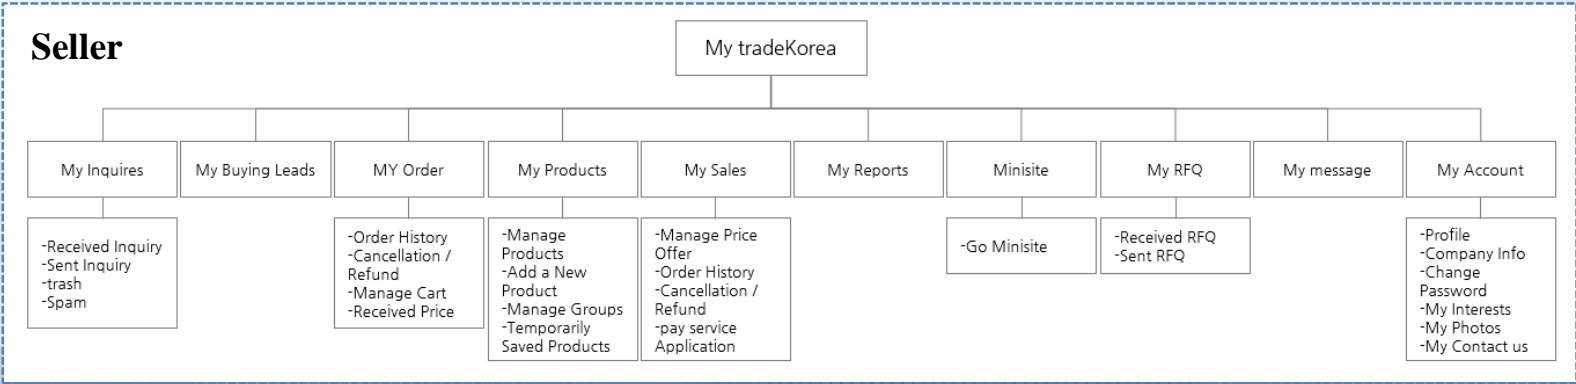

#### 11.1.1 How to use the My tradeKorea menu

The My tradeKorea menu for buyers differs from that for sellers to help members carry out business in tradeKorea.com.  
For the buyers, the My Inquires, My Buying Leads, and My Order menus are provided to help them make purchases.

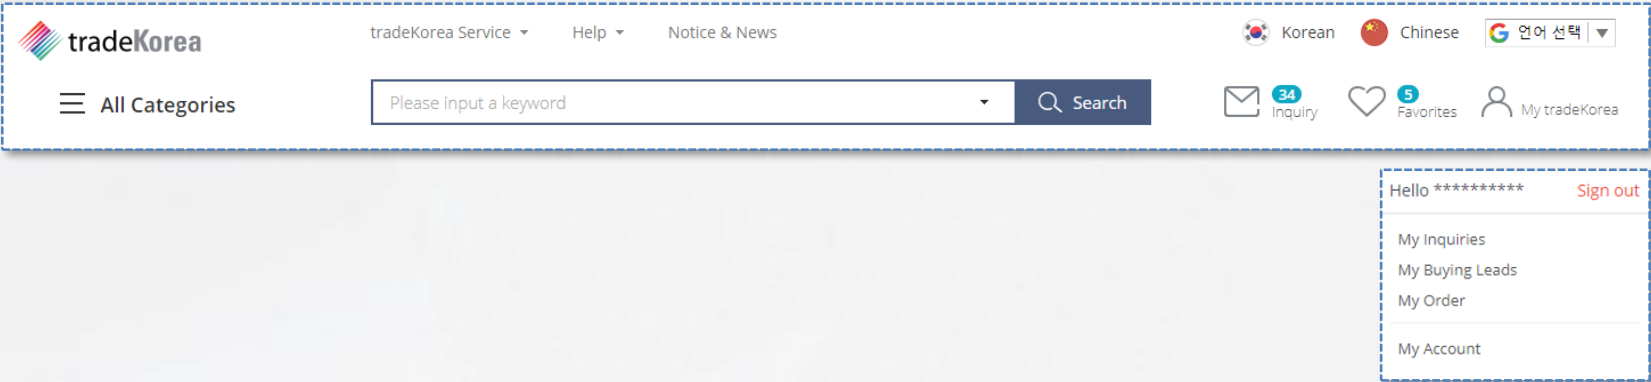

The My tradeKorea menu for buyers differs from that for sellers to help members carry out business in tradeKorea.com.  
For the sellers, the My Products, My Sales, My Report, and Minisite menus are added in addition to all the buyer's menus to help the sellers sell their products.  
My Report provides statistical analysis reports (popularity ranking of registered products, nationalities of buyers who clicked on a product, and Minisite visitor trend).

11.1.1. How to use the My tradeKorea menu (2/2)
