

Feel the revolution! Nothing's better!

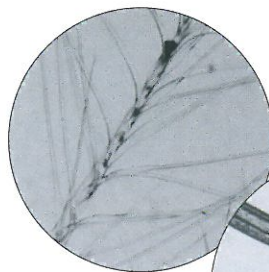

MICRO GEL™ Fiber (MGF) we use inside is sole alternative to 100% natural white goose down.

MICRO GEL™ Fiber is hard to be distinguished from the 100% natural white goose down.

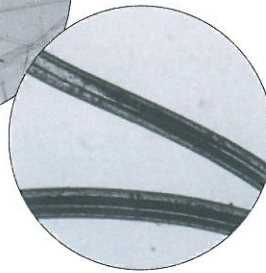

MICRO GEL™ Fiber is state-of-the-art man-made down.

Experience superior thermal performance!

MICRO GEL™ Fiber functions just like natural goose and duck down.

MICRO GEL™ Fiber's thermal performance surpasses Wool, Kapok, Silk, Cotton and ordinary Polyester.

MICRO GEL™ Fiber provides warm and comfortable feeling as shown below.

Comparative Table for Thermal Performance
