Item	Photo	Specification
<b>Aluminum PET film</b>		<p><b>Item:</b> Aluminum PET film <b>Application:</b> Widely used in the metallic yarn,package, gold &amp; silver cardboard metallic papers, decoration trip and so on <b>Feature:</b>1, Strong adhesive strength. 2, Nice brightness; 3, Credible heat seal ability 4, Well-proportioned <b>Specification:</b> Thickness: from 12micron to above Width: adjustable to customer's requirements</p>
<b>Silver PET film</b>		<p><b>Item:</b> Silver PET film <b>Application:</b> widely used in the metallic yarn, decoration and so on <b>Feature:</b>1, Strong adhesive strength. 2, Nice brightness; 3, Credible heat seal ability 4, Well-proportioned 5, Good smoothness and evenly plain 6, Excellent physical properties <b>Specification:</b> Thickness: from 12micron to above Width: adjustable to customer's requirements</p>

<p><b>PET colorful metallic film</b></p>		<p><b>Item:</b> PET colorful metallic film  <b>Application:</b> widely used in the metallic yarn, decoration, packing products and so on  <b>Feature:</b> 1, Strong adhesive strength.  2, Even color and luster;  3, Excellent physical properties  4, Well-proportioned  5, Good smoothness and plain  <b>Specification:</b>  Thickness: from 12micron to above  Width: adjustable to customer's requirements</p>
<p><b>PET Release film</b></p>		<p><b>Item:</b>PET Release film(R01,R02,R03,R04,R06,R08)  <b>Application:</b> it is applied the adhesive products, electronic products, packing products and so on.  <b>Features:</b> 1, Excellent physical properties  2, Little thickness tolerance  3, Highly transparency  4, Low thermal shrinkage rate  5, Good flexibility  6, Good smoothness and evenly plain  7, Well-proportioned  8, No crinkle, avulsion, granule, bubble, pinhole  <b>Specification:</b>  Thickness: from 12micron to above  Width: adjustable to customer's requirements</p>
<p><b>Glitter Powder</b></p>		<p><b>Item:</b> Glitter Powder  <b>Application:</b> used for Christmas decoration, textile printing &amp; dyeing, art &amp; craft gift, screen painting etc.  <b>Features:</b> 1, Resisting high temperature of up to 170°C and acid &amp; alkali solvent.  2, The colors never fade easily.  3, No toxic and odour.  <b>Specification:</b>  The shape: tetragon, hexagon, heart-shaped, star-shaped, crescent-shaped and so on  Size: all kinds of size from 1/256" to 1/6.35"(0.1mm~4.0mm)</p>
